Import Form W-2

Instead of typing your information into TurboTax, you might be able to download it directly into TurboTax from your employer. It's more accurate than entering the information manually and it saves you time.

Do you want to determine if you can download your W-2 into TurboTax?

☒ Back

☒ Yes

☐ No

Import Your W-2 to TurboTax

You can import your W-2 information to TurboTax if your employer is participating in the Automated Tax Return program. Follow the steps below to find out if your W-2 is available for import.

Step 1 Find the nine digit Employer Identification Number (EIN) on your W-2. (The EIN is found in box b of your W-2)

Step 2 Enter your employer's EIN, then click "Go."

Employer EIN:

W-2 Import from ProBusiness

ProBusiness

Enter your Social Security Number (SSN) and the amount listed in Box 1 of your 2000 Form W-2 to import your W-2 from ProBusiness.

Note: Enter the Box 1 amount without dollar signs, commas or decimal points. For example, 29,589.90 would be entered below as 2958990.

SSN

Box 1 Amount

Which username or password should I use?
What if I don't know my username or password?
What if my username or password does not work?
If I have a large amount of information to import, how should I import the data?
What if I decide that I don't want to import my return information?
